The Metropolitan Planning Organization (MPO) is comprised of representatives from the City of Cheyenne, Laramie County, Wyoming Department of Transportation (WYDOT), and Federal Highway Administration (FHWA). The MPO was initiated in 1964 to provide a comprehensive, continuing, and cooperative process of review for the existing and future transportation system in the Cheyenne urbanized area within the Metropolitan Planning Boundary. This process assists with coordination of the efforts of the involved agencies.

The MPO works with the Traffic Department at the City of Cheyenne, Laramie County Public Works, and WYDOT to provide traffic counts for modeling purposes and engineering applications as well as for public and private information. The counts in this report have been compiled from these government agencies and private consultants. The majority of counts in this report were collected during the months of March, April, May, September, October, and November which provides close sampling of Average Annual Daily Traffic (AADT). Some counts in this report were collected during the summer months which can be higher than normal these special counts are designated with CFD (Cheyenne Frontier Days), and HOL (Holidays or Weekends).

These counts are published for your information. Please contact the MPO office if you require assistance with transportation planning issues or if you wish to comment on these traffic volume figures.

1. The volumes listed in this report are the total count, in both directions, measured in a 24-hour period between Monday - Friday.
2. Locations are listed alphabetically by street name.
3. (CFD) designates counts taken during Cheyenne Frontier Days.
4. (HOL) designates counts taken during Holidays or Weekends.
5. CLASS refers to Road/Street Classification
