

# High Plains Road 35% Design Plan

## Connecting I 25 to US 85 / South Greeley Highway

### PROJECT NEED

- Development of the Swan Ranch Rail Park and other oil producing industries in the SW region of Cheyenne metro area
- Potential for growth and economic development which will demand additional transportation networks in that area
- A connection between High Plains Interchange on I 25 to US 85 to provide greater access to businesses and residents in that area

### PROJECT GOALS

- Development of a conceptual road design for High Plains and recommendation of a preferred alignment
- Accommodate the needs of the existing landowners and future roadway users
- Accommodate the safety of all road users
- Follow a comprehensive planning process including an extensive public involvement strategy
- Address all considerations of a new Greenfield\* development

### PROJECT TIMELINE

**JANUARY 2015—OCTOBER 2015**

Public Process—Feb through July

Draft Report—April

Final Report—August

Governing Body approval—Sept.
