

Alternative 4

19th Street Closed & 20th Street Extended

19th Street/Old Happy Jack Road Intersection

Pros:

- Intersections meet current design standards
- Flood plain improvements are included as part of this alternative
- Greenway path crosses under 20th Street
- 20th Street traffic remains 2-way to Snyder Avenue
- Maintains connectivity between 20th Street and Old Happy Jack Road

Cons:

- Additional right-of-way is required
- Main entrance for ready-mix plant is blocked
- Intersection of 20th/Old Happy Jack Road/Missile Drive is skewed
- 20th Street intersection will need to be signalized by 2030

Missile Drive Corridor Project
