Staff:	Jeff Noffsinger	MPO Director
	Ginni Stevens	MPO Senior Transportation Planner
	Valerie Pickard	Office Manager

1. Call to Order – 12:06pm [Agenda Report](#)
2. [Approval of Minutes](#) Motion to approve from Cobb, second Jording. Motion passes.
3. [Review of Passenger Rail Station Site Selection Study](#)
Noffsinger gave an update on this plan.
Arnold: I like the idea of the Reed Rail Corridor and the Depot; we should look at long term parking in these areas.
Cobb: I am concerned about parking as well and concerns using the Depot. I am happy to have the consultant review these locations. Reed only has a finite amount of space as well. Are they willing to look at additional sites? Were these locations the only ones recommended by the Committee.
Wiggam: There is an ongoing DDA Plan of Development process underway. It seems to be appropriate to include this in the plan.

4. [STP-U and High Plains RR Overpass Scope and Fee.pdf](#)

Noffsinger: gave update on STPU. The Policy Committee is looking at getting an update on costs for these projects. And updating the priorities of this list.

Bennett: Are we updating this file today?

Noffsinger: Yes, we are looking for updated costs for the Policy Committee to consider at their next meeting.

Bennett: I would like to see as much of the funds going to Dell Range, Whitney Rd and US 30.

Cobb: Are there other funds that could be used?

Monahan: These funds are not eligible for CPG funds.

Bennett: The County would not be directly involved with this.

Arnold: My concern is that we are not keeping up with current project costs.

Noffsinger: There are possible grant funds that are available.

Hale: LEADS could have some funding available.

Cobb: When will this be Annexed? There could be 5th penny funding if it was in the City.

Bloom: There is no imminent proposal to annex this.

Hale: In regards to the High Plains Road study, we can help with costs for this, let's have this conversation later.

Bloom: It seems that the Technical Committee will not move forward with reprioritizing this list, only that they are looking to get an update on project costs.

Noffsinger: We could meet before the next Policy Committee, Cobb, Bennett, the Mayor

Monahan: I brought a spreadsheet with updated costs.

Motion to receive updated numbers and revisit and discuss sequencing by Arnold seconded by Cobb. Motion passes.

5. Pollution Climate Action Plan - Stakeholder Input

Maes and Olson: gave an update on this Plan.

6. Project Updates

- Safe Routes to Schools Update

Stevens gave an update on this project.
